

Innovating solutions today to meet
tomorrow's challenges

P e m e x

April 6, 2020

WHO WE ARE

W Industries is part of the Singapore-based CSE Global group of companies. Since 1984, W-Industries has been at the forefront of control and automation technology development, engineered packaging solutions and instrumentation and electrical construction.

01

GLOBAL REACH

We deliver complete solutions across project life cycles around the world no matter where your project is located.

02

EXCEPTIONAL SERVICE

We understand that while the big things are extremely important, sometimes the little things actually make the biggest impact. That's why no matter how big or small a client's request, every task is backed by a team dedicated to exceptional service.

03

STRONG RELATIONSHIPS

Our relationships with both our clients and suppliers strengthen our organizational capability and further elevates our team's ability to offer the most efficient project execution schemes.

W-INDUSTRIES MILESTONES

1984

Ron Wooten and John White founded W-Industries as a Compressor Control Panel shop.

1989

Expanded products and services to include PLC based control systems.

2000

CSE Global acquires W-Industries.
W-Industries acquires ICON based in Louisiana.

2001

Company restructured into separate business units: Subsea Controls, Chemical Injection, Topsides Process and Safety, Offshore I&E.

2002

W-Industries acquires Control Concepts & Technology based in Louisiana.

2019

W-Industries acquires Volta, LLC. based in Houston, TX.

OUR VALUES

W-Industries values are deeply embedded in our corporate culture. They represent what our company stands for, what our employees embody, and what our services and products contribute to the market.

HEALTH, SAFETY & ENVIRONMENT

We are committed to an incident free workplace, reducing hazards, safeguarding equipment and protecting the people, communities and the environments in which we operate.

INTEGRITY & TRUST

We earn the trust of our customers, colleagues and partners by operating with the highest ethical standards in everything we do.

QUALITY

We maintain a quality system that ensures adherence to industry best practices and compliance with all customer and regulatory requirements.

TRAINING & DEVELOPMENT

We place great emphasis on providing access to training and continual development to ensure our team is the most capable in our field.

INNOVATION

We push ourselves to continuously seek out cutting-edge solutions to the industries biggest challenges.

COLLABORATION

We build meaningful and lasting relationships by collaborating with our communities, governments, customers, suppliers and other business partners.

CONTINUITY THROUGH SEAMLESS SOLUTIONS

Today, as the industry focuses on bigger challenges, increasing production while reducing costs, W-Industries understands the importance of continuity and the efficiencies in providing seamless offerings backed by a fully-integrated team.

Our offerings span the entire value chain from concept to commissioning and beyond.

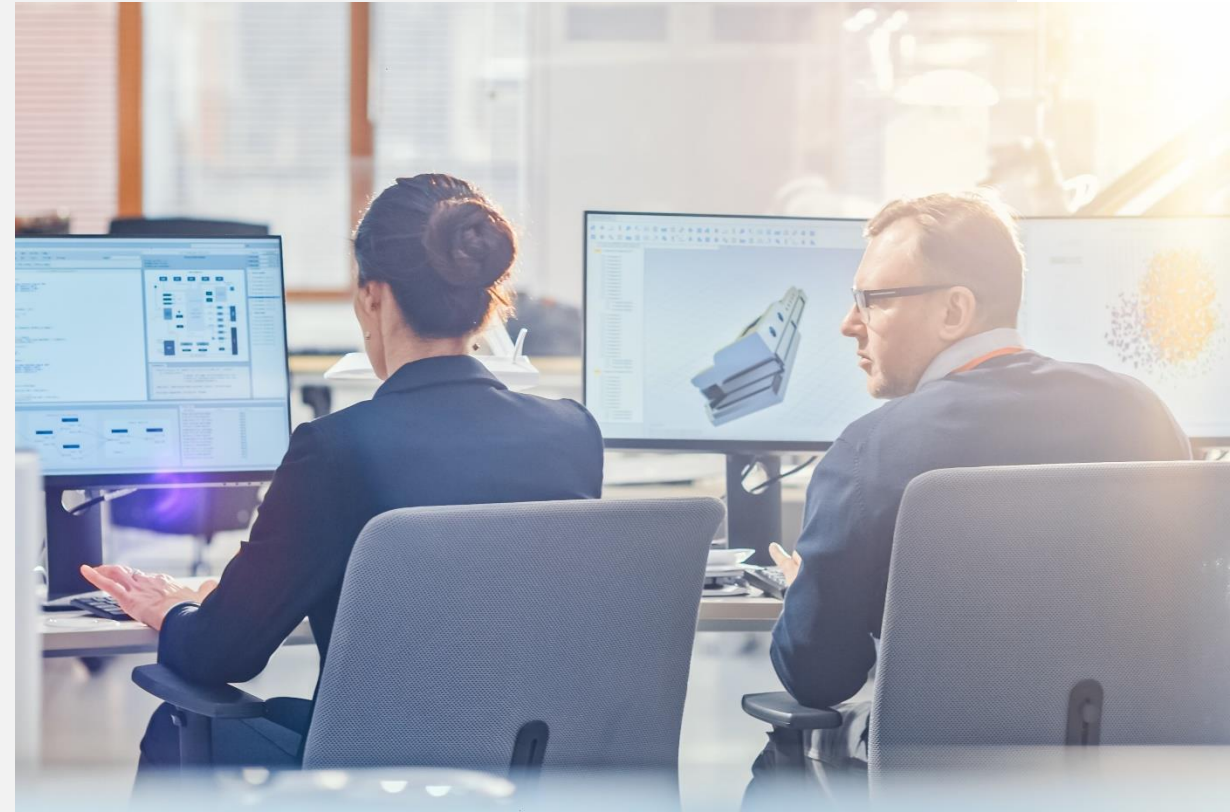

FEED & CONCEPT STUDIES

Early FEED involvement means:

- Less time to design
- More efficiencies on project teams
- Redundancies are eliminated
- Seamless phased project coordination
- Real-time Internal project team communication

ENGINEERING

Engineers make up $\frac{1}{4}$ of W-Industries' team. They continually communicate with our project managers and installation and construction teams throughout the entire project ensuring optimal outcomes. We are proud to boast a wide breadth of experienced engineering specialties on our team including:

- Mechanical Engineers
- Structural Engineers
- Electrical Engineers
- Software Engineers
- Control Engineers
- Instrumentation Engineers

PROCUREMENT

W-Industries vast experience working with EPCs ensures we understand how to adjust our scope of involvement to match the skill-set of the EPC and integrate our familiarity with other project vendors to produce positive impacts on project outcomes. Working hand in hand with the EPCs on procurement efforts:

- Ensures safe and secure integration of project components
- Aligns project components with enterprise requirements
- Maximizes vendor relationships

MANUFACTURING

We pride ourselves on the fact that every concept and design is fabricated and comes to life in our global offices and combined manufacturing and fabrication spaces. This equates to:

- Complete control of all components from the first phase of a project to final commissioning
- Limited hand offs resulting in reduced risk to the project
- Strict attention to detail along the entire supply chain enabling the ability to foresee and address design related issues prior to the execution stage

FROM CONCEPT TO DELIVERY & BEYOND

W-industries provides seamless servicing from concept to delivery. We have an extensive track record in delivering turnkey contracts that produce innovative, cost-effective and on-schedule projects with the highest Quality and HSE standards. We deliver complete solutions across project life cycles from FEED to commissioning and start up, as well as continued service and maintenance programs.

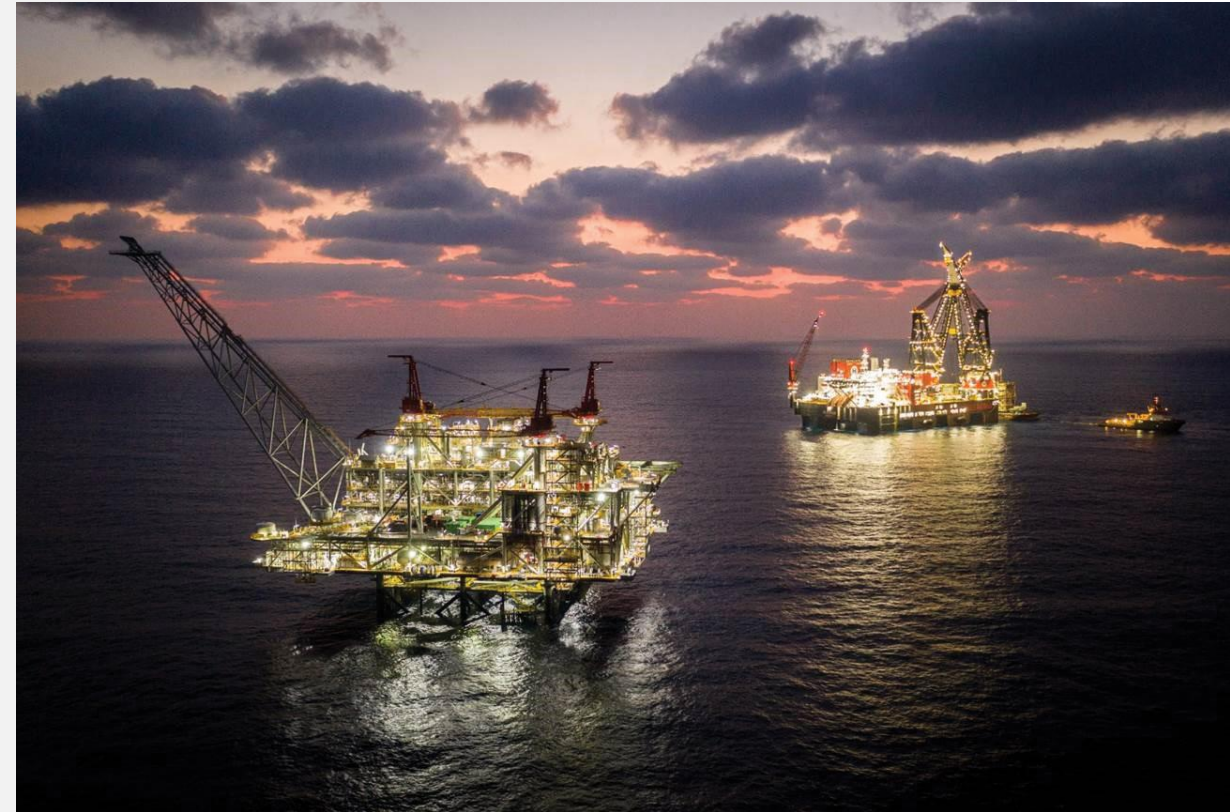

COMMISSIONING AND MAINTENANCE

Startup is the ultimate test of all steps leading up to project completion. Comprehensive knowledge of the entire automation and information systems is critical for success. W-Industries ensures:

- Project engineers are onsite and play a hands-on role during startup
- All testing is performed prior to commissioning to minimized time onsite
- Comprehensive training is provided to all essential personnel
- Lifecycle management plans are put into place for future upgrades or migrations

OUR FACILITIES

Five facilities with over 141,000 ft² of combined manufacturing and fabrication spaces.

CORPORATE HEADQUARTERS HOUSTON, TX

- 62,000 ft² of manufacturing and fabrication with 120,000 ft² lay down
- 20 ton overhead crane capacity
- Structural, piping and tank welding capabilities
- ISO 9001:2015, ATEX QAN / IECEx QAR, ETL

PETROPARK HOUSTON, TX

- 24,000 ft² of manufacturing and fabrication
- 100 ton mobile crane capacity
- Structural, piping and tank welding capabilities
- ISO 9001:2015, ETL

MAURICE, LA

- 15,000 ft² of manufacturing and fabrication
- Welding capabilities, sheet metal fabrication

CORPUS CHRISTI, TX

- 5,300 ft² of manufacturing and fabrication with 187,000 ft² of lay down
- 15 ton overhead crane capacity
- ASME U coded vessel shop
- Welding capabilities

VOLTA HOUSTON, TX

- 35,000 ft² of manufacturing and fabrication with 100,000 ft² lay down
- 15 ton overhead crane capacity
- ISO 9001:2015

OUR SERVICES

From new capital project builds to legacy system upgrades, W-Industries excels at providing innovative control and automation, process packages, and instrument and electrical installations that yield optimal operational performance. Our thirty-plus years of experience enables us to provide reliable and efficient solutions to meet even your most challenging project needs.

AUTOMATION & CONTROLS

From single unit controls to complete platform and plant control systems, W-Industries has implemented thousands of process control and industrial automation system configurations in the US Gulf Coast and around the world.

ENGINEERED PACKAGES

From single pump installations to complete offshore modules, W-Industries supports each project with a level of expertise that only comes from experience and commitment to craftsmanship.

I&E CONSTRUCTION & SERVICES

We offer the full range of I&E manufacturing and field services. From panel design and manufacture, to field installation and commissioning through startup and maintenance.

ENGINEERING PACKAGES

From single pump installations to complete offshore modules , W-Industries supports each project with a level of expertise that only comes from experience and commitment to craftsmanship.

- Air Compressor Packages
- Air Dryer Packages (membrane and regeneration types)
- Antifouling Units
- Ballast Control Systems
- Chemical Injection, Storage & Distributions Systems
- Compressor Seal Gas Systems
- Electrical, Power, & Process Buildings/Racks
- Flushing Units
- Fuel Gas Conditioning Packages
- Gas Chromatograph Buildings
- HIPPS (High Integrity Pressure Protection System)
- Hydraulic Power Units (HPU)

ENGINEERING PACKAGES

Our integrated approach includes FEED estimation, process design, mechanical design, detailed engineering, procurement, construction, fabrication, inspection and commissioning.

- Topsides Umbilical Termination Assemblies (TUTA/TUTU)
- LACT Units
- Lube & Seal Oil Systems
- Metering Skids
- Methanol Injection, Storage & Distributions Systems
- Installation/Workover Control Systems (IWOCs)
- Nitrogen Generation Packages (membrane and PSA)
- Riser Tensioning Systems
- Test Units
- Wash down Skids
- Wellhead Control Panels

AUTOMATION & CONTROLS

Based on the unique details of each project, experienced oil and gas process and control systems engineers, design and develop functional specifications and execute on implementation and testing plans.

- Emergency Safety Systems (ESS, SIS, SSS)
- Facility / Integrated Control and Safety Systems (FCS, ICSS)
- Fire & Gas Systems (F&G)
- IT/OT and Networking Services
- Industrial Cybersecurity and Hardening Service
- Operator / Simulation Training Systems
- Gas and Fluid Metering / Flow Assurance / Custody Transfer
- Flow Assurance and Sales Export Systems
- Process Control Systems (PCS)
- Subsea Master Control Station (MCS)
- SCADA and Data Management Systems
- Subsea Electrical Power Units (EPU)
- Simulation, Digital Twin, Testing & Support
- Data Analytics, Machine Learning and AI Applications
- Custom Applications for UI/UX, Communication Protocols, Customer-Specific Processing
- IIOT / Cloud Services
- 3rd Party Device Protocol Handlers
- CCTV / Security Systems

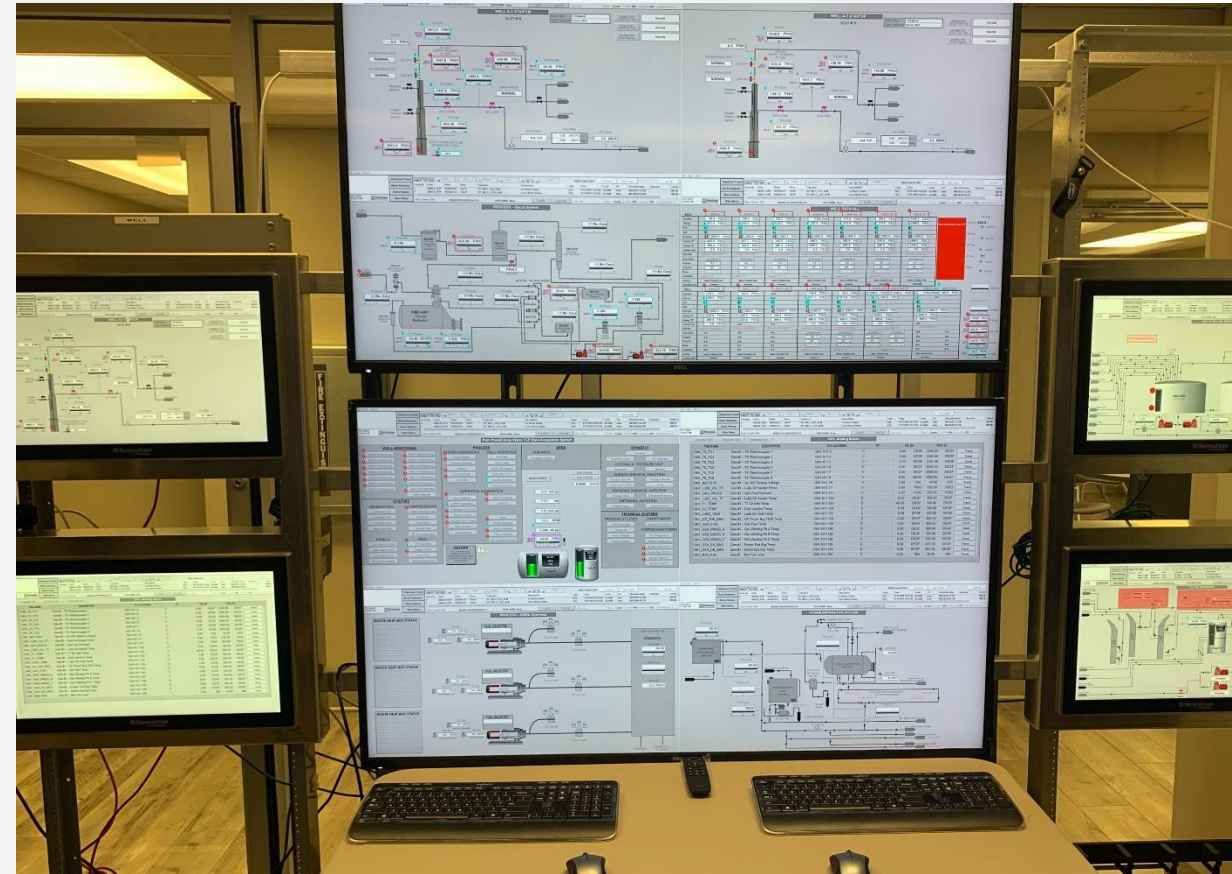

CYBER FRAMEWORKS AND IN-DEPTH SECURITY CONTROLS FOR OT ENVIRONMENTS

Infrastructure

- Inventory, planning, design and procedure
- Configuration, staging, upgrades, FAT, commissioning, SAT and handover
- Firmware upgrades
- Migration, decommissioning and divestment
- Management, monitoring, troubleshooting and corrective action

Security

- Compliance audits, risk assessment and mitigation
- System hardening and lockdown
- Intrusion Detection/Prevention and Anomaly detection
- Vulnerability and Penetration testing
- Segmentation and remediation using IEC/ISA62443, ICS-CERT, CIS and NIST standards

CYBER FRAMEWORKS AND IN-DEPTH SECURITY CONTROLS FOR OT ENVIRONMENTS

W-Industries Industrial Cyber team provides OT infrastructure design and security assurance with sustainability in mind. Our focus on sustainability aims to increase the availability, integrity and confidentiality of industrial control systems (ICS).

- Firewalls, network, physical/virtual systems and thin clients
- Sustainability services: antivirus, backup/recovery, patch management and syslog/SIEM
- Network/System analysis, incident response and post incident analysis

INTEGRATED SYSTEMS FOR DISTRIBUTION AND CONTROL OF ELECTRICAL ENERGY

Volta, a W-Industries company, is an original equipment manufacturer of highly complex and integrated systems for distribution and control of electrical energy and other critical processes, including medium voltage/low voltage switchgear and motor control equipment.

In-House Engineering

- Electrical equipment engineering (MV/LV switchgear, motor control and eHouse)
- Mechanical engineering
- Integrated systems engineering
- Complete modular eHouse power system, both single and dual story

Project Management

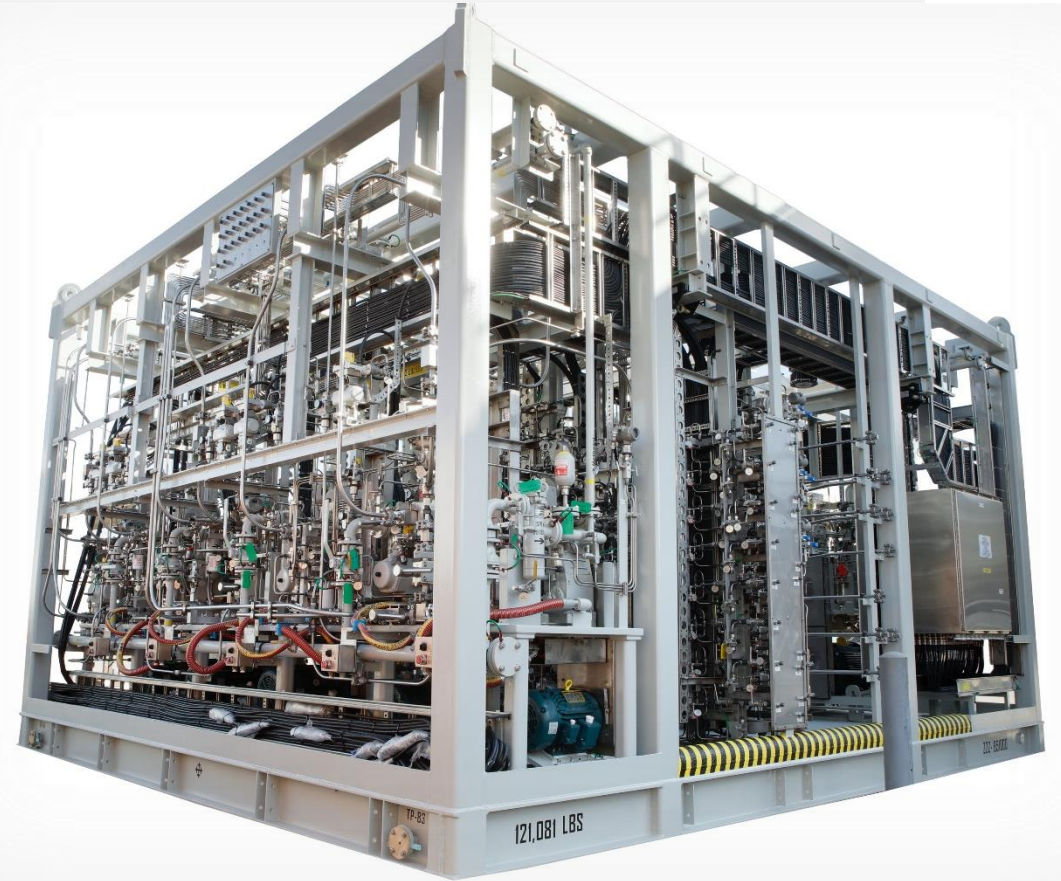

- Client single point of contact for all project deliverables
- All project managers are EEs for engineer to engineer communication
- All project management and engineering located under one roof for seamless coordination and handshaking of moving parts

I&E CONSTRUCTION & SERVICES

Based on the unique details of each project, experienced oil and gas process and control systems engineers, design and develop functional specifications and execute on implementation and testing plans.

- Commissioning Services
- Fabrication & Manufacturing
- Instrument & Electrical Installation & Maintenance
- Start-up

WHY W-INDUSTRIES?

- Integrated approach streamlines processes, reduces risk, and aligns complementary technologies
- Offerings span the entire life cycle from concept to commissioning and beyond
- Majority of W-Industries' team is made up of engineers that play a role in every step of our process
- Every concept and design is fabricated and comes to life in our global offices and combined manufacturing and fabrication spaces
- Each solution is tailored and customized for every individual project

Product Profile

Fully Integrated MV Class I DIV 2 Power Distribution Center

Client: Exxon

Fully Integrated MV Arc Resistant Switchgear

Client: INEOS

Fully Integrated MV Two Story Interconnected Power Distribution Center

Client: Motiva

Fully Integrated Offshore Electrical Building

Client: Pemex

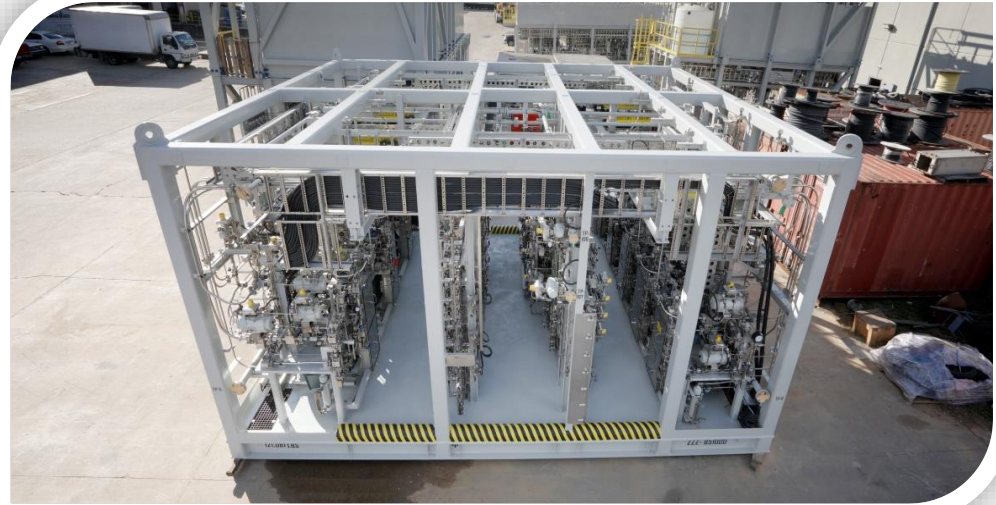

Fully Integrated Hydraulic Power Unit

Client: Shell

Fully Integrated Methanol Injection

Client: BP

Fully Integrated Chemical Injection

Client: HESS

Fully Integrated WellHead Control Panel

Client: Afren

Fully Integrated Subsea WellHead Control Panel

Client: PEMEX/TPFMC

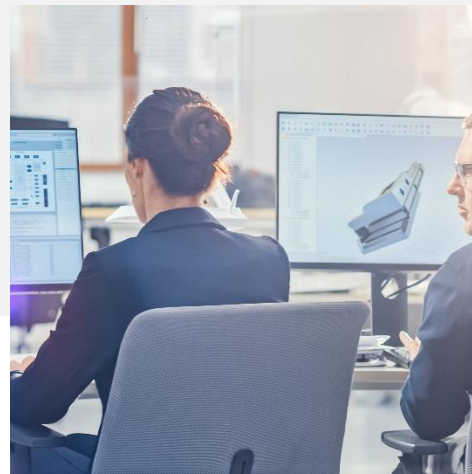

Fully Integrated WellHead Control Panel

Client: Equinor

WHY W-INDUSTRIES?

- Integrated approach streamlines processes, reduces risk, and aligns complementary technologies
- Offerings span the entire life cycle from concept to commissioning and beyond
- Majority of W-Industries' team is made up of engineers that play a role in every step of our process
- Every concept and design is fabricated and comes to life in our global offices and combined manufacturing and fabrication spaces
- Each solution is tailored and customized for every individual project

LET'S GET STARTED

Early involvement means less time to design, more efficiencies and less redundancies. Our strict attention to detail along the entire supply chain paired with our expertise in system integration enables us to foresee and address design related issues that could arise during the execution stage of the project. We focus on seamless and cost-effective project design to maximize asset utilization. Let's work together to learn how W-Industries can help optimize your projects today!
